# Opticks Privacy Glass

Opticks textured glass is a great option to meet both light and privacy needs. Eight textures run the gamut from nature-inspired, tranquil textures to contemporary textures that are both dramatic and subtle. Common among all eight Opticks doorglass patterns is the beautiful way light refracts and diffuses off the textures.

Available in a wide range of door and side lite sizes and energy-efficient low-E glass, Opticks will let light in, preserve privacy, and add character to a home.

Blanca - Privacy Level 9

Micro-Granite - Privacy Level 9

Rain - Privacy Level 9

Vapor - Privacy Level 6

# SMOOTH SERIES

plastpro

Our Smooth Doors are made with a pre-pigmented white skin; its simplicity gives a modern design and feel to any home. Our Smooth skin incorporated with a variety of panel designs and glass options, gives a clean, minimal look to any of our fiberglass doors.

#### 6'8" & 7'0" DOORS & SIDELITES

#### 7'0" DOORS

#### MATCHING 6'8" SIDELITES

AVAILABLE IN 36" X 80" TRIMMABLE DOOR

MATCHING SIDELITES

## FIRE RATED

Made with fire-resistant composite, Plastpro Fire Rated doors are extremely durable. Our doors are tested and comply with safety and performance standards to withstand fire for a minimum of 20 minutes. Most importantly, our doors provide a safe home without ever sacrificing style.

# OAK SERIES

Oak is a classic wood of choice for its beautiful patterns, produced by its coarse texture and prominent graining. Dressed in a rich oak grain texture, our Oak Doors exude the typical wood aura for a look that will never go out of style.

MATCHING SIDELITES

# SHAKER SERIES

Our shaker focuses on simplicity and is easily adaptable for any homes exterior. The one panel and two-panel shaker's straightforward design showcases the beauty a minimal design can offer. It is available in both smooth and fir grain.

# FLUSH GLAZED

Our Flush Glazed Doors allows the ultimate amount of light into your home. The collections designs allow the glass to radiate and provide generous views.

## SDL BARS

The Simulated Divided Lites (SDL) bars are known to elevate and enhance the beauty of an entryway, and as an available addition to the door, they seamlessly blend the modern door design with any style of home.

### SDL BAR OPTIONS

SDL is applied to glass and glass contains no spacer bar.

## PFT™ DOOR FRAMES

To have a complete entry system, it is important to consider the material of the door frame. Wood doors and frames are prone to warping, rotting, and cracking, while steel doors and frames can rust and dent. You don't want to install a door that will fail, nor do you want to install a frame that will fail.

### FEATURES & BENEFITS

- Equipped with HydroShield technology, it will not absorb or wick moisture, and prevents warping, rotting, and splitting.
- Frame is not able to be infested with termites at any point along the structure.
- More versatility in design. Available in various lengths and widths that can be stained as well as painted.
- Has twice the screw holding power of traditional wood door frames.

### FRAME DECAY COMPARISON

PLASTPRO PFT™ DOOR FRAME

\*with Hydroshield Technology™

TRADITIONAL WOOD FRAME

Susceptible to rotting, warping and decay

### GRAIN STYLES

Door systems Powered By Endura components are engineered to create smarter, better experiences for everyone, every time. Endura's innovative solutions work together to account for real-world challenges you face each day, delivering secure, hassle-free performance, and unmatched quality and value.

**FRAMESAVER® ROT-PROOF DOOR FRAMES**

FrameSaver® Door Frames are simply the best wood frames on the market. Backed by a fully-transferable lifetime warranty, FrameSaver combines the performance of composite and the strength of wood in one innovative solution.

**ROT PROOF PERFORMANCE. BACKED FOR LIFE.**

FrameSaver never absorbs water, rots, cracks or warps, and is backed by the industry's strongest warranty.

**UNMATCHED WARRANTY. ULTIMATE ASSURANCE.**

Backed by the industry's only fully-transferable lifetime warranty for endless coverage and peace of mind.

**LIKE WOOD, ONLY BETTER.**

Composite bottom delivers superior protection from water, while finishing and painting just like wood.

**PROVEN DURABILITY. ADDED STRENGTH.**

Finger-jointed construction creates a perfect fit and enhances structural integrity of the frame.

Innovation protected under patents & patents pending in U.S. and Canada. See [www.EnduraPatents.com](http://www.EnduraPatents.com).

**Z-SERIES ADJUSTABLE INSWING SILL (ZAI)**

Z-AI uses an innovative design of all-synthetic components that are built to last, eliminating the worries of wood and enhancing performance. Protect your entry from unsightly damage, rusted screws, discoloration, deformity, gaps and dents with Z-Adjustable Inswing Sills.

- ▶ **Built to Last** - Waterproof all-composite substrate won't rack, warp or rot, ever. No more stuck doors, drafts or callbacks.
- ▶ **Sealed Adjustment Screws** - Sealing plugs hide unsightly screws and keep water and dirt away from the adjustment mechanism, maintaining adjustability of the sill cap over time.
- ▶ **Classic Substrate** - The Z-Series Classic substrate features durable construction and flexible cuttability to offer hassle-free sill performance and unmatched value.

**ADA-COMPLIANT SILLS**

Enhanced accessibility doesn't have to mean a compromise in protection. With ADA Sills Powered By Endura®, you can deliver the best of both. Endura's ADA Sills provide optimum performance, and by incorporating a dam that meets ADA height requirements, an improved seal is created between the door and sill that still provides ease of entry.

Innovation protected under patents & patents pending in U.S. and Canada. See [www.EnduraPatents.com](http://www.EnduraPatents.com).

**Z-SERIES BUMPER OUTSWING SILL (ZOB)**

Bumper Outswing Sills offer ultimate protection in high exposure areas and severe weather conditions. The seal produced by the Bumper Outswing increases with pressure against the door, for enhanced protection against air and water.

**ULTIMATE SLIDE BOLT ASTRAGAL  
STANDARD ON 6/8**

The Ultimate Slide Bolt Astragal delivers simple operation, leak-fighting sealing power and built-in security for lasting protection, value and peace of mind.

**SLIDE TO ENGAGE.**

Each bolt engages with a simple sliding action. Spring-loaded Floating Boot seals, independently from the bolt, against the sill to fight air and water infiltration even in imperfect conditions.

**SLIDE TO RETRACT.**

Each bolt retracts with a simple sliding action. Spring-loaded Floating Boot lifts clear of the sill preventing wear and damage, allowing problem-free use of the inactive door.

**TRILENNIUM® MULTI-POINT LOCKING SYSTEM**

Unmatched Strength. Ultimate Performance. Backed by the industry's highest ratings for structural and forced entry performance, Trilennium delivers 3x the strength, 3x the security and 3x the performance in one system.

**UNMATCHED STRENGTH:** Protects with the power of three deadbolts, while the one-piece, solid I-Beam lock construction works to strengthen the door panel.

**UNMATCHED PERFORMANCE:** Bolts pre-engage when unlocked to fight deflection at all times, and can correct misalignment up to 3/16" in three directions once engaged.

**UNMATCHED OPERATION:** A single turn of the thumbturn or key is all you need to unlock the door. With Panic Release, a single turn of the interior lever unlocks the entire system.

**TRILENNIUM® HANDSET COLLECTION**

Our extensive hardware portfolio combines elegant design with precision engineering for beautiful, reliable performance with ultimate customization to match any style.
